ADMISSION.

The student must be twelve years of age for admission to the Scientific or Preparatory classes, and fourteen for admission to the College classes.

In all cases satisfactory testimonials of good character must be given; and of students coming from another College a certificate of regular dismission is required.

Uninterrupted residence is required during Term time. Absence of graded students, from whatever cause, is liable to work degradation. Leave of absence is granted only in extreme cases.

We prefer that those who intend to graduate at this Institution should enter the Freshman Class at least, if not our Preparatory School, rather than prepare themselves elsewhere for an advanced standing.

Students coming from other Colleges are examined and receive their grade by the judgment of the Faculty.

Candidates for admission to the Freshman Class must pass an examination in the books prescribed in our Preparatory Course; or, if they come from other schools, where different authors are read, in that which shall be deemed an equivalent to this Course.
